ART IN-STYLE

GUEST ROOMS & SUITES

No two stays are the same at this hotel. Each room enjoys a different colored Baboon, so you'll always be wondering what Baboon awaits you! In Egyptian culture, the baboon motif represents the sun of Ra, the god of the sun, often depicted in murals as heralding the beginning of a new day while offering praise to the sun each morning. The baboon symbolizes the welcoming of guests and is strategically placed to greet them as they enter their room, which is filled with joy. The room is also decorated with a whole gallery of art which represents the Egyptian culture and heritage through a selection of modern digital illustration, prints, photographs as well as traditional textile fabric and hand painted tiles.

DINING AREAS

Hanging from above in the main restaurant, you can admire a wall installation showcasing beams adorned with clusters of glass figures that embody the concept of communal dining. The use of blown glass in the installation pays homage to Egypt's rich tradition of glass craftsmanship. You can cast your eyes on the splendid paintings of land, produce and agriculture, beautifully depicting Egyptian soil that is renowned for many rich crops sold worldwide. However, the jewel in the crown titled "To Mend is to Shatter". It is a tribute to a prominent Egyptian sculptor who owns the largest porcelain factories on the continent, establishing an iconic brand found in every Egyptian household and dining setting.

HOTEL RECEPTION

The lobby provides a unique and multifaceted portrayal of Egypt beyond its ancient history. Various artworks showcase Egypt's diverse heritage, culture, people, landscapes, and crafts, offering a rich and inclusive representation.

When you step into the hotel, you will immediately be mesmerized by the reception mural comprising of seven large-scale paintings displayed side by side on a wall, illustrating the seven pillars of Egyptian identity. Each painting showcases different symbols representing Pharaonic, Coptic, Islamic, Greco-Roman, African, Arab, and Mediterranean influences, creating a cohesive and continuous artistic representation.

As you check-in you will admire the display of artistic brilliance in 3D murals depicting Egypt's rich and diverse landscape, from deserts to waters will leave guests breath-taken.

A further beautiful installation can be seen in honor of the diverse facets of life within the Egyptian population and capturing the essence of the bustling and vibrant streets. The installation, crafted from colored glass, draws inspiration from the prevalent use of this material in Egypt's churches and mosques. The number of figures depicted in the installation corresponds with the total number of artists who have contributed to the art displays in the hotel.

POOL

By the pool, you can admire some of the most fascinating sculptures while enjoying a refreshing drink and relax. Among the sculptures are a large stainless steel piece with mirror-like zigzag design resembling the Nile's depiction on ancient Egyptian murals. Furthermore, your eyes will be entertained by the cheeky and colorful interactive installations.
